

Center for Educational Leadership

PROGRAM DISCLOSURE POLICY

Dear Trainee,

It is extremely important that you fully understand the purpose of the program and the outcomes that you can expect from your participation.

The purpose of this project and its program design is threefold:

First, we want to foster excellence in small business development for startups and existing entrepreneurs by offering our ten week **Entrepreneurship Training Program**. There you will learn the fundamentals starting and operating a small business enterprise. Our goal is for you to complete the program and develop a personalized business plan. Upon completion you will receive a certificate of completion.

Second, students that complete the ten week training are eligible to compete for acceptance into our **“Entrepreneurship Incubator”** program. There we provide a support infrastructure and mentoring program that advances your business plans developed in the ETP program and attempts to assist you towards launching your business enterprise if your business plans are financially feasible and marketable.

Third, we will provide ongoing support and technical assistance for students who complete the training and incubator program and acquire an ongoing support agreement. These services are made available through our **“Entrepreneurship Resource Center”**. Those students become affiliates of the Academy and would have access to an array of resources and services.

****IMPORTANT PLEASE READ****

Completion of the program **does not** guaranty either grants or loans to advance your entrepreneurial ideas. **We do not guarantee that your enterprise venture will be successful. And CEL shall not be held liable if you do not succeed in your entrepreneurship endeavor.** The center will conduct itself in a professional manner and help you build your business plans, mentor you and your progress and assist in anyway we can to help you to pursue your entrepreneurship aspirations.
